

Machine Learning Final Project

Contribution report

Member Name	Modules/Code Sections	Report Sections	Experiments	Slides	Other Tasks
Milana Karimova	Repository foundations and CI; preprocessing; evaluation metrics; weighted Decision Tree; Gradient Boosting	README; project guide; contribution report; preprocessing, tree, and Gradient Boosting material	Foundation and baseline support; data acquisition guidance; Gradient Boosting analysis	Foundation, data, tree, and Gradient Boosting defense material	PRs 1, 2, and 9; contribution share 24.11%
Sharaf Feyzullayev	Dataset registry and audit; AdaBoost; SAMME.R; DBSCAN; package exports; experiment utilities	Report components; AdaBoost and DBSCAN methods and results	Dataset audit; AdaBoost and SAMME.R analysis; DBSCAN and unsupervised support	Dataset, AdaBoost, SAMME.R, and DBSCAN defense material	PRs 3, 6, and 10; contribution share 25.09%
Nijat Agayev	Random Forest and OOB behavior; bagging exports; PCA; K-Means; progress and ETA system	Validation report; slide guide; defense guide; Random Forest, PCA, and K-Means evidence	Random Forest and OOB studies; PCA and K-Means analysis; progress and reproducibility validation	Random Forest, OOB, PCA, K-Means, validation, and defense material	PRs 4, 5, and 12; contribution share 25.95%
Farah Feyzullayev	Experiment runner; run_all.py; smoke tests; interactive notebook	Final report assembly; final presentation	Complete seven-study orchestration; full-run results and figures	Final full-run deck and presentation evidence	PRs 7, 8, and 11; contribution share 24.85%

Milana Karimova: MK

Sharaf Feyzullayev: SF

Nijat Agayev: NA

Farah Feyzullayev: FF
